

# DRIVEWAY PAVERS

Drivestone driveway pavers are the biggest and the best exposed aggregated concrete driveway option. The large sized 400x300x65mm thick pavers contain feature pebbles and engineered glass sand which provide sensational surface finishes. The smooth, exposed and honed surface finishes available will provide you with a durable, non-slip and highly attractive driveway which will be the envy of the neighbourhood.

Ebony Pebble Exposed Finish

Mist Pebble Exposed Finish

- Premium Surface Finishes
- Quick to lay
- Low maintenance

Ebony ECO Smooth Finish

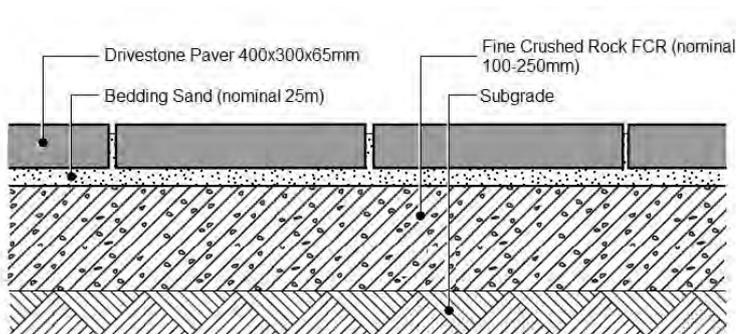

Mist Pebble Exposed Finish

Ebony Pebble Honed Finish

## LAYING TIPS

- Ensure there is adequate site drainage i.e Crossfalls

- Ensure minimum completed FCR base depth of 150mm

- Use quartz sand not metal dust as the bedding sand

- Ensure dry sand is used in the joints to fully lock up the pavers

Sealing is recommended to enhance the exposed aggregate colours
