Iconically Australian – Born in Melbourne, with it's subtly- textured faces and crisply-defined edges, Nubrik encapsulates the colours, qualities and lifestyle that Australians have come to admire. This carefully selected, premium collection of pressed bricks are used in prestigious homes and buildings throughout the country, and will instantly create a look and feel that will never grow old.

Product – Traditional | Chapel Red

Authentic Design – Originality is an essential quality of style. Nubrik has remained true to its core principles for close to a century, and produces rich colour blends, found only in genuine pressed bricks. This gives Nubrik an air of glamour and sophistication, making it a versatile architectural choice, able to fit looks both classic and contemporary.

Evolution of Shape and Colour – Acknowledged by generations of discerning architects, builders and home-owners, Nubrik's timeless appeal has allowed it to remain desirable no matter what is currently in vogue. With colours and shapes to entice individuality and personality, this premium range's traditional yet cutting edge character, make it ready to take on the next 100 years.

Designed to Last

—
Natural and authentic design
that is strong and reliable.

-
- | | | |
|--|---|--|
| <p>1.
Low maintenance</p> <p>No need to paint or use and apply other treatments to maintain their aesthetics and durability. They are strong, reliable and relatively maintenance free.</p> | <p>2.
Expansive range</p> <p>Brick's natural colours and textures enable you to create both striking façade contrasts and more traditional neutral colour schemes.</p> | <p>3.
Superior strength</p> <p>Clay products are stronger than other light weight materials and also provide a safer and more secure home from the outside environment.</p> |
|--|---|--|
-
- | | | |
|---|--|--|
| <p>4.
Affordable</p> <p>Bricks are a cost effective solution to increase the value of your investment or project from day one.</p> | <p>5.
Energy efficient</p> <p>Combined with intelligent passive building design, clay bricks can help moderate building temperatures and reduce energy consumption.</p> | <p>6.
Sustainable</p> <p>Clay is a natural resource which has been used for centuries because it retains its colour forever as well as its durability. Architects, engineers and specifiers continue to appreciate the advantages of using clay products.</p> |

Traditional

Made in VIC

100 years is enough time to establish a tradition, and time enough to prove a point. For a century or more Nubrik's brick presses have been moulding solid, authentic pressed bricks in this premium selection. With their crisp, sharp edges Nubrik Traditional bricks exude quality and will endure for generations to come. Their elegance and honesty, rich colour blends and pressed face textures make them extremely popular with the discerning architect, builder and homeowner.

Artisan Nubrik Artisan draws inspiration from Victoria's frosty alpine environments with their palette of cool grey contemporary winter hues. This range combines a modern grey colour palette with the traditional quality and cachet found in genuine pressed brick. Suitable for both external facades that make a bold statement or as moody internal features, the Nubrik Artisan range perfectly complements modern living, style and design.

Laneway

Made in VIC

Inspired by the character and rustic charm of Melbourne's famous back streets and laneways. With their inner city character and sometimes bold colour variations, this double sided brick can show manufacturing marks and kiln burns that reflect the age-old authenticity of the materials. Made using traditional presses, each brick has an authentic look and a genuine presence to give an age-old grounding to even the most contemporary of applications.

Nubrik Australis

Made in VIC

Developed over months of trials in our Wollert plant, our research and development team has achieved something genuinely special – a pressed brick with timelessly beautiful subtle marbling. It allows the clay to mimic natural rock, creating distinctive and appealing naturally multicoloured tones.

Mortex –

Mortex is a factory manufactured, quality assured

premixed M4 rated mortar solution. Its consistency can save labour time, increase efficiency, remove the need for on site blending, and it is compliant with AS3700:2018. Mortex takes the guess work out of mortar blending and reduces the potential for under strength, non compliant mortar use.

Mortar Finishes

There are four common mortar finishes and these various finishes result in different shadow lines on the wall. A raked finish will create a deep shadow in the mortar joint. This brings out the horizontal lines of the brickwork (and the vertical lines to a lesser extent) and it is the most common finish. Ironed and struck joints also create shadow lines, but these are much finer and more subtle. A flush joint doesn't allow shadow lines to form at all, giving the wall a flatter, more unified look. Using a mortar colour to match the brick will take this a step further.

Flush

Mortar Colours

Whitemortar is currently the most popular colour. This is made by mixing light coloured cement and white sand and results in a traditional brick and mortar look. Mortar can be coloured by adding powdered or liquid pigments to the mortar as it is being mixed by the bricklayer. It can also be tinted to match the brick colour, giving a very even wall colour. Please confirm with your bricklayer what their mortar colouring offering is before making your final decision.

Special Shapes

2

Special Shapes –

Shaped bricks are used in conjunction with standard bricks to create distinctive architectural features, adding detail and appeal. Unlike polystyrene or fibreglass mouldings that are simply glued into place, shaped bricks are as durable and colourfast as conventional bricks and are available in a variety of colours.
